Plastics and Rubber Processing and Applications **9** (1988) 254–255

CONTENTS OF VOLUME 9

Number 1

Editorial 1

Relationships between injection moulding conditions, micromorphology and impact properties of polypropylene: 1. A typical commercial grade 3–16
M. W. MURPHY, K. THOMAS and M. J. BEVIS (Great Britain)

Stress–strain property reference points for non-linear materials 17–21
J. ROBERTS (Great Britain)

LCST and UCST behavior of polymer blends 23–27
H. W. KAMMER (German Democratic Republic)

Processability, mechanical properties and failure modes of XLPE/EPDM blends . 29–36
G. B. NANDO, S. THOMAS and B. B. PATRA (India)

Rheological behaviour of 1,2 polybutadiene–natural rubber blends 37–45
S. S. BHAGAWAN and S. K. DE (India)

A standard constitutive equation for rubber-like materials 47–52
GIANLUCA MEDRI (Italy)

The kinetics of absorption and desorption of liquid by a rubber annulus using a model and short-term tests 53–58
Y. KHATIR, J. BOUZON and J. M. VERGNAUD (France)

Short Communication

Stabilisation of EPDM at high temperatures by polymer-bound antioxidants: III. Evaluation of masterbatch concentrates 59–62
G. SCOTT and S. M. TAVAKOLI (Great Britain)

Forthcoming meetings 63–66

Number 2

PVC: Conference Papers

Effect of biaxial orientation on PVC structure and properties 67–72
M. GILBERT (Great Britain) and Z. LUI (People's Republic of China)

The high-speed mixing of PVC with plasticisers 73–79
R. C. STEPHENSON (Great Britain)

Factors determining the weld strength of window corners fabricated from impact modified UPVC profiles 81–89
B. HAWORTH, T. C. LAW, R. A. SYKES and R. C. STEPHENSON (Great Britain)

Hardness measurement as a technique for assessing gelation of rigid PVC compounds 91–97
J. A. COVAS (Portugal)

Structure/performance relationship of PVC pipe 99–106
H. F. SCHWENCKE (Belgium)

Twin screw extrusion of a rigid PVC compound—effect on fusion and properties . . 107–116
J. A. COVAS (Portugal), M. GILBERT (Great Britain) and D. E. MARSHALL (USA)

Relationships between injection moulding conditions, micromorphology and impact properties of polypropylene: II. Addition of high and low molecular weight polypropylenes 117–127
M. W. MURPHY, K. THOMAS and M. J. BEVIS (Great Britain)

Book Review 129

Forthcoming meetings 130–132

Plastics and Rubber Processing and Applications (**9**) (1988) © 1988 The Plastics and Rubber Institute, England. Printed in Great Britain

Number 3

Plasma treatment of PTFE: Effects of processing parameters on bonding properties 133–140
L. MASCIA, G. E. CARR and P. KEMBER (Great Britain)
Effect of blending on the dispersion and flow behaviour of black-filled bromobutyl and EPDM rubber blends 141–146
P. MUKHOPADHYAY and C. K. DAS (India)
The fatigue performance of polyethylene pipe joints made with electrofusion fittings 147–153
J. BOWMAN (Great Britain)
Improved mechanical behaviour in ultra high modulus polyethylene by controlled crosslinking 155–161
D. W. WOODS, W. K. BUSFIELD and I. M. WARD (Great Britain)
Effects of molecular structure on the properties of ethylene–vinyl acetate copolymers 163–166
D. C. EAGLES and A. RUDIN (Canada)
Effect of processing parameters on the physical properties of Hytrel . . . 167–172
M. GAZTELUMENDI, I. MONDRAGON and J. NAZABAL (Spain)
Influence of physical ageing on creep in the α- and β-relaxation regions in PMMA. 173–179
G. D. DEAN, B. E. READ and G. D. SMALL (Great Britain)

Short Communications

Nylon 6 weld line strength compared to bulk in injection moulded samples . . 181–186
A. RALLIS, S. PICCAROLO and G. TITOMANLIO (Italy)
Some effects of recycling high impact polystyrene 187–190
F. A. JAMIL and S. D. A. SHUBBER (Iraq)
Book Reviews 191–193
Forthcoming meetings 194–196

Number 4

Rubbercon: Conference papers

A triboelastic model for the mechanical behaviour of rubber 197–201
D. M. TURNER (UK)
Examination of adhesive joints using electronic speckle pattern interferometry . 203–208
B. P. HOLOWNIA (UK)
Effect of metal oxides on the properties of carboxyl nitrile rubber vulcanisates . 209–214
PHILIP H. STARMER (USA)
Carboxylated polybutadienes as coupling agents for mineral filled elastomers . . 215–220
M. B. EVANS, R. N. ROTHON & T. A. RYAN (UK)
Investigation of interphase transfer catalysts as activators of sulphur vulcanisation of diene rubbers 221–225
A. G. PROYCHEVA, A. A. DONTSOV, E. Y. ANDRYAKOV, T. V. ROMANOVA & A. G. FOMIN (USSR)
Comparison of mechanical and thermal properties of phosphonitrilic fluoroelastomer and fluorosilicone rubber 227–232
FOLKE BJÖRK & BENGT STENBERG (Sweden)
Microwave preheating of sheet moulding compound 233–240
P. J. COSTIGAN & A. W. BIRLEY (UK)
Glass reinforced polyamide injection moulded: fibre orientation effects on properties 241–250
ANGELO GENNARO (Italy)
Forthcoming meetings 251–253
